Call for Papers

The electronic displays Conference (ED) is the established Conference in Europe for promoting the dialogue and discussion between engineers, researchers, users, and manufacturers/distributors in the field of electronic displays. We are looking for contributions from research & development and applications as well as market trends.

Topics of interest include, but are not limited to:

- Display technologies (LCD, OLED, PDP, LED, E-paper, flexible displays, (pico-) projection, FED, ...)
- Driving and interfaces (controller, software, FPGA, LVDS, DVI, DISPLAYPORT, ...)
- Touch screens (techniques, software, ...)
- GUI, HMI (software, methods, solutions, ...)
- 3D (displays, reproduction, software, ...)
- Measurement tasks (display performance, ambient light, response time, ...)
- System aspects and integration (embedded systems, lifetime, environmental conditions, ...)
- Display subassemblies (backlight, housing, ...)
- Supply chain (quality assurance, reliability, logistics, customized displays, ...)
- Display applications (e-signage, automotive, avionic, consumer, industrial, information, medical, mobile, ...)

Author interviews will provide intensive discussions and contacts with the attendees.

The electronic displays Conference is a technical conference. Purely marketing- or PR-oriented papers will not be accepted. The official language is English. All submitted abstracts will be reviewed by the Conference Committee for acceptance.

Important deadlines:

- Submission of abstracts: 7. October 2011
